### ANNOUNCEMENTS.

For Circuit Judge.

We are authorized to announce that Hon. L. H. THOMAS, of Washington county, is a candidate for Circuit Judge in the district comprising the counties of Green, Taylor, Marion and Washington, subject to the action of the Democratic party.

The apathy manifested upon both sides in this campaign is something no one seems to understand. In Louisville, last week, a representative of The News talked to a number of politicians, finding them all in the dark and with no definite idea as to the meaning of the still hunts. It was the opinion of some that Indiana and New York would both go Democratic while others were of a contrary opinion. One leading Republican, well-known here, said that the result in Indiana was very doubtful.

The most enthusiastic political meeting we ever attended was at Phoenix Hill, Louisville, last Thursday night where Hon. W. J. Bryan spoke to 15,000 people. Mr. Bryan is the most captivating man now before the American people and is making as gallant a fight for Parker and Davis as he made for himself while before the country as the Democratic candidate for the Presidency.

Remember that Geo. E. Stone is the Democratic candidate for Congress in this district. He is an able man and would make a Representative for whom the people would feel proud. Vote for him.

The loss of lives in the ten days' battles before Mukden is enormous. The latest dispatch says that eighty thousand soldiers fell. There has been no fighting for the last few days, but renewed hostilities are daily expected with the information that the next engagement will be the decisive battle. It seems that during the long fighting before Mukden the losses were about equally divided. The Japanese still claim that they will eventually take Port Arthur, while the Russians claim that it can not be taken. When peace has been declared history will record one of the world's bloodiest wars.

The basis of success in political contests is the efficiency and earnestness of the precinct organizations. When these faithful workers are enthusiastic the way is clear for victory. The Campaign Committee is particularly gratified at the reports from the precinct Chairmen and their sub-committeemen. There is an increase in interest throughout the State that gives assurance of an old time majority for Parker and Davis.

In Kentucky Tom Watson has been posing as the friend of the farmer and the workman. In New York State, he traveled on special trains, no doubt paid for by the Republican Campaign committee. There never was a more shameless political bargain than that between Watson and the Republicans. It is not possible that he can turn the Populists of this country, bound hand and foot, over to Roosevelt.

Kentucky stands far up in the lead in the list of awards made to the exhibitors of the Louisiana Purchase Exposition, having a total of 136, divided as follows: Six grand prizes, thirty-five gold medals, fifty-three silver medals, seventy-two bronze medals. This record, too, is made in the face of the fact that there were only three Kentuckians on the juries of awards.

About one thousand Masons attended the session of the Masonic Grand Lodge last week. Owen D. Thomas, of Lebanon, the retiring Grand Master, delivered an able address, commending the work of Kentucky Masons during the past year. The reports showed there were 700 live lodges in the State.

The registration in Louisville shows a clear Democratic plurality of over 8,000. Giving the Republicans two-thirds of the independent vote—and they will not get one-third of them—and the Democrats would still have a safe margin of 2,500 votes.

It is only thirteen days until the election and not a speech has been made in Adair county by representatives of either side, excepting one.

It is only a few days until the election and every Democrat should use his utmost endeavors to get out the full vote.

Hon. Wood Dunlap, of Lexington, spoke to a small audience of Republicans at this place last Friday.

The race issue does not disturb the North because the negro population there is not sufficiently large to menace its peace or prosperity. Republican politicians from the President down can "open the door of opportunity" to the black man because there is small danger that he will walk through that door and assault his wife or daughters, but in the South a different condition confronts the white man. He has to deal with a horde of idle, vicious negroes, who band together for his destruction, or waylay the women of his family and subject them to indignities worse than death. The recognition that Roosevelt gave to Booker Washington, his forcing negro Collectors and Post-masters on the people of the South, his constant preachments on the subject of race prejudices, has stirred these ignorant masses, until their insolence has grown unbearable.

Former President Grover Cleveland delivered a great speech in favor of Parker and Davis in New York City last Friday night. When he entered the hall he was given an ovation that lasted seven minutes. He went after the Republican Administration with a "hot rod," showing that its claims for the country's good were fallacies and full of dead men's bones. At the conclusion of Mr. Cleveland, Hon. John G. Carlisle made a ringing speech along the same line. The Democrats of New York are alive, and feel sure that the State will be carried for Parker and Davis.

Every storekeeper, gauger, postmaster, and collector in Kentucky has been held up by the Republican Campaign Committee, but the big corruption fund of four and eight years ago is missing. That was contributed by the Trusts in an effort to debauch Kentucky. This year the stream of booties has been directed to other States where is a better chance to invest it profitably. This State is so safely Democratic that it has been deserted by the National Committee.

The Republicans are trying to make it appear that there is no interest in the coming election with the hope that many Democrats will remain at home on election day. Democrats should not be deceived. Be at the polls early and stamp under the roster.

It is the duty of every Democrat to vote and not one should fail to be at the polls on the day of election.

During his long illness he received the best attention, and his improved surviving relatives decided to return their thanks to the many who volunteered their services until the end came.

## WILL BORE FOR OIL.

The indications are that the oil interest in Adair county will be at fever heat in a very few days. A company has been organized with Stearns & Yates at its head, who say they expect to spend \$2,000,000 in Adair and adjoining counties in sinking oil wells. The company will begin operations on Wood and Pulliam's land, lying on Harrodsfork, in about ten days. The plan for putting up derricks is now being saved at Western Bros' mill. The places for putting down wells on Harrodsfork have been selected, and not less than six holes will be bored on this creek. There is every indication of oil in this locality. Last Sunday gas was lighted on the stream and it burned for several hours. The people of Harrodsfork believe they are high, and excitement is high.

We have just closed a very gracious meeting with Big Creek church, Adair county, in which the pastor was assisted by Bro. A. L. Brown, of Buffalo, Ky. The service continued 14 days. The visible results were ten conversions and the church strengthened in its faith. Bro. Brown's preaching was sound good preaching, a good yoke fellow in the ministry. The Holy Spirit's power was seen on the tenth day of the meeting as the twelve never saw it before. All most every Christian tried to glorify his Savior in leading sinners to Christ. Every sinner was moved to tears. Twenty-seven came to the altar for prayer in less than five minutes after the invitation was given. All the conversions were from the Sunday-school but one. To be all the glory and honor, now and forever.

J. C. Lay and wife, Mrs. W. J. Goshay, C. M. Hatter and Miss Della Goshay, have returned from the St. Louis Exposition.

# FROM MR. BRYAN'S PAPER.

Geo. Ad. says Indiana will give a republican majority of 40,000. Sad how soon these great humors run out.

The trusts are going to experience trouble in selling the public another job lot of life preservers stuffed with old iron.

Senator Spooner's denial would have been much stronger if it had not been quite so strong an appeal for sympathy.

The gentlemen who complain that presidential campaigns must be business are finding difficulty in securing the proof this year.

It will strike a good many people that Senator Spooner is offering to prove his innocence by men who dare not admit the facts.

That ominous rattle from somewhere in Ohio is an indication that General Graveler is getting his prediction machine oiled up.

Chairman Crutcher is of the decided opinion that Andrew Carnegie is offering some strong arguments in favor of the republican ticket.

The Wisconsin and New York situations call for a lot of soft speaking on the part of the president, but big sticking is noticeable by its absence.

The banks report a slow demand for money. Men never rush hurriedly to a bank to borrow money. They hesitate and approach with diffidence.

The LaFollette decision and the Stettin expose came so close together that Senator Spooner is excusable for believing that someone has it in for him.

The New York Tribune is now earnestly striving to convince the supreme court that it knows much less than a President Roosevelt about common law.

Mr. Rockefeller has about arrived at the stage where he can prove that he earns his money by pointing to the articles written by Mr. Lawson and Miss Tarbell.

Gov. Wright talks long about what the U. S. has done for the Filipinos. But the U. S. has been guilty of many sins of omission, also.

Republican leaders are explaining by saying that Mr. Roosevelt wrote these books long years before he ever entertained an idea of running for the presidency.

PHILOSOPHY OF A PENCIL-PUSHER.  
A tone of logic will not outweigh an ounce of sentiment.

The cook is the real autocrat of the breakfast table.

A man may insure against burglars, but from the words of the housekeeper there is no protection.

In music practice makes perfect. In love it makes eyes.

Scholarship rather than charity causes a man to give up his car when a pretty woman enters the car.

As you continue to tip the waiter it is difficult to believe that prostration does not pay.

Kisses like poker chips, fall to the lot of the man who knows how to bluff.

Although a woman may marry for love there is no reason why she should be contented to live on it.

Brave men win battles; audacious men win women.

The man with a past fascinates women despite the fact that he has no future.

A piece of work, which is worthy of much praise, is a river steamer constructed of the pith from cornstalks that is now on exhibition in the barber shop of Shelby & McGrath.

The work is that of an artist, who bears no reputation, and is hardly known ten miles from his home in Keizer county. He is a crippled negro, but spends much of his time in making things of this kind.

He presented it to a friend in the city, who visited him some time ago. Every part of the craft is made in a very scientific manner and should be seen by all. The maker has been offered a big price for his work.—Danville Advocate.

Gov. Beck has addressed a large crowd at Lawrenceburg, last week and Senator McCrory spoke at Franklin.

# GENERAL NEWS

Frederick Eugene, infant son of John Shumaker, of New Haven, died of brain fever.

Ben Essex, 15 years of age, is dead in Laramie county, of typhoid fever.

Sam Montgomery and Miss Annie Dean, of Washington county, were married at Springfield.

John L. Oaks and Miss Alice Ferris, Porter Williams and Miss Nellie White, all of Taylor county, were united in marriage.

Lee Durham, of Campbellville, while skating on roller skates, fell and broke his right arm in two places.

Laramie Circuit Court at Hodgenville heavily fined and imprisoned a number for selling liquor.

Louis Haydon, one of Nelson county's oldest and most prominent citizens, died at the age of 91. He left no children.

J. Craig Ballston, formerly with the Danville Advocate, has been appointed by the Democrats of Jefferson county, Colorado, for County Clerk and Recorder.

Mr. Lewis Applegate, formerly of Bardonia, now L. & N. Agent at Jacksonboro, Tenn., and Miss Flora Krebs, of New Haven, were married at the latter place, October 24.

Over 1,200 people heard Hon. Ollie James speak at Dixon last week.

Two prominent republicans of New York, were arrested for alleged colonization of illegal voters.

The number of voters who registered in Greater New York the first two days is placed at nearly half a million. Democrats are encouraged at these figures.

David B. Hill, of New York, addressed a democratic mass meeting at Indianapolis, one night last week. The hall was crowded and many people unable to secure admittance.

Chairman O'Brien, of the Indiana democratic State committee, feels confident the vote of the Hoosier State will be cast for Parker and Davis. The Indiana campaign will be waged with great vigor from now until election day.

The democrats of New York City held a mass meeting in Madison Square Garden, which attracted a tremendous crowd.

Judge Parker delivered an address at Rosemont Saturday to two political delegations that visited him. This was the second address of Judge Parker since accepting the democratic nomination, and it dealt with the question of imperialism. The speaker declared that the Philippines should be treated as the Cubans were in the matter of independence.

In his wonderful speech-making tour of Indiana last week, when he made sixty-four speeches for Parker and Davis and the Democratic ticket in four days, Hon. William J. Bryan once more demonstrated to the world his great practical sagacity, his loyalty to the Democratic party and his possession of the undying confidence and love of the masses of the great common people. No greater Democrat has lived since Andrew Jackson.

No greater public man ever lived than William Jennings Bryan, and his great efforts in behalf of Parker and Davis and the Democratic ticket will strengthen the forces of Democracy everywhere.—Glasgow Times.

# PULASKI DEMOCRATS.

It is time to be wise, determined and faithful. The bickering and strife of Republican factions may portend no good to the little band of fifteen hundred to two thousand true and tried Democrats of Pulaski. But not desired. Not one principle of Democracy can any Democrat afford to surrender to win the approval of any number of men; not one can any Democrat in Pulaski afford to waver in his fealty to the basic principles upon which his party rests.

In replying to the cause of any nominee of our party let it be distinctly understood that the first consideration with every Democrat is that he is the embodiment of sane and sound Democracy. This is a union of strength and truth that brings victory worthy of a just cause.

Geo. E. Stone is presented to the voters of Pulaski as a "Democrat of Democrats," desiring no man or a crushing no man and with intention to swing no man; absolutely without fault or blemish in reputation and character.

It will be equivalent to the commission of an unpardonable sin for any Democrat in the county to fail to go to the polls and vote for Stone.

It will be to the everlasting credit of any Republican who desires to complement such an act, or who wants to register his condemnation of political dishonesty and arrogant bossism in his own party, to vote for Stone.

In the announcement of Judge Stone published throughout the district is the assurance that if elected to Congress he will owe the honor to the votes of Republicans and Independents as well as the Democrats, with the pledge to be in that event, the official representative of all the people comprising the district—not a mere faction of a party rent and torn by internal contentions and unwholesome ambitions.

The purpose of announcing Judge Stone for a speech at Somerset last Saturday was that he might make this plain to those who honored him with their presence and attention. He was pre-eminently prevented from making the opening speech of a short campaign on that day, and his health is such that he may not be able to make or fulfill any other appointments in the county or district during the campaign.

The duty of Democrats of Pulaski is plain enough. You have a magnificent ticket to support. You have the true principles of republican government to defend. You should desire no victories based upon corrupt methods or false or fraudulent pretenses. This is not a battle of a day but for all future days.

MINERAL WATER.  
It Has Been Recently Found on the Farm of J. C. Morrison, Taylor County.

This well is on the Campbellville and Glasgow pike, five miles from the former place and seven from the latter. The well is 88 feet deep and the water is as cold as a person would want it. It is situated on Mr. J. C. Morrison's place, who is making preparations to take a few barrels.

The following gives a full explanation: Lexington, Ky., July 30, 1894.—Mineral water sent by J. C. Morrison, Campbellville, Taylor county, Ky., July 18, 1894. The sample was received July 21, 1894, in pint bottle. The water smelled strongly of hydrogen sulphide and there was a deposit of sulphur in the bottle.

ANALYSIS.  
The water contains 320.9 grains of solid matter to the gallon, composed mainly of chlorides and sulphates of sodium, calcium and magnesium, some calcium carbonate and traces of iron, potassium and lithium compounds and a trace of borates. The water contained also a very considerable quantity of hydrogen sulphide. Is very good saline sulphur water.

CHEAP LANDS  
For Homesteaders' and Colonies.

The country along the Cotton Belt Route in Southeast Missouri, Arkansas, Northwest Louisiana and Texas offers the greatest opportunities for homesteaders. Mild climate, good water, cheap building material, abundance of fuel, and soil that will often in a single season yield enough to pay for the ground. Land can be bought as cheap as \$10 to \$20 an acre, prime land at \$4 and \$5 per acre up, bottom land at \$2 and \$3 per acre up, improved or partly cleared land at \$10 and \$15 per acre up. Some fine propositions for colonies—tracts of 2,000 to 8,000 acres at \$4 to \$10 per acre—big money in this for a good organizer. Fruit and truck lands in the famous peach and tomato belt of East Texas at \$10 to \$20 per acre up. Write us for information about cheap rates, excursion dates, and literature descriptive of this great country and let us help you find a home that will cost you no more than the rent you pay every day.
